

Taifans Inverter

Perfect Replacement, Comprehensive benchmarking

We can produce branded machines, customized machines according to customer requirements, the brand can be OEM, Taifans, white label, or your own brand

Siemens

Series Model: S120 G120 S130 G130 S150 G150 and so on

Taifans

Our advantages are: higher cost performance, better hardware materials, more reasonable structure, longer warranty period (one and a half years) and faster delivery time

We can completely benchmark S120 G120 S130 G130 S150 G150 machines, such as inverters, drives, power supplies, main board, Capacitor board And resistance etc.

Such as photo asbelow:

In addition to parts, we can also produce the whole machine as shown below:
And the brand we can make our taifans Brand or your company brand, it's depend on yourself

ABB

Series Model:ACS800 ACS880 ACS850 ACS580 And

Disadvantage:As we all know, the delivery time of ABB's machines is very long, ranging from two months to as long as half a year, and the product price is expensive, and their MOQ must be met

Taifans

Our advantages are: higher cost performance, better hardware materials, more reasonable structure, longer warranty period (one and a half years) and faster delivery time

We can also produce machines that are exactly the same as ABB series, and the delivery time is short, the quantity is random, there is no MOQ, and the goods can be inspected at any time

You can check photo as below:

And the machine brand also depend on your self

Explosion-proof shell:Motor integration

Triol

The medium-voltage frequency converter produced by TRIOL, Ukraine, is used in the petroleum industry. Their products have a large market and are widely used, but now the supply chain is blocked and they cannot be delivered.

Taifans

Exactly the same machine with a long warranty and faster delivery
We have a professional production line, and have completed the production and delivery of 50 units
And we've shipped to Iraq, got batch certification

You can compare the goods photo as below:

TRIOL

Taifans
